

Route Description

- Start on top of Kupferberg at the C26/D1982 junction.
- Ride 29.4 km on the C26 in a southern direction and turn left on D1237
- 6Km further you will get your 1st water point (SCE Consulting Engineers) which will supply basic needs only.
- Your support vehicle may assist at this point and must park behind the water point.
- Ride for 34km and turn right at the main crossing
- You will see the Lake Oanob main entrance in front of you.
- Ride another 1km, pass the main gate on the left.
- You will see the 2nd and last water point (KIA MOTORS) in front of you, this is also the end of main road section and the finish for the King and Queen of the road.
- The KIA water point will also serve as a 3rd water point for the Ultra Marathon riders when coming back from the first section in the mountains.
- Support vehicles will be allowed at this point but may not accommodate the riders any further on their routes.
- Support vehicles to park behind the water point.
- Ultra Marathon will turn RIGHT and Marathon LEFT at the KIA water point.
- The next (Marathon and Ultra Marathon) mountain sections are very scenic with a few steep challenging climbs.
- Ultra Marathon rider will get 1 water crossing, about 50cm deep, you can go through or around the water section.
- The mountain section (Ultra Marathon) will also determine the King and Queen of the mountain, the fastest time through this section will take the title.
- Some areas in this section are dangerous and will be marked with danger signs.
- Please be very cautious when you see the danger signs.
